15 to S.Q. ITA clinic for said follow up  
16 treatment and refused treatment by  
17 officer Cortez at the door.

18 complications to the S.Q. H-unit medical, I  
19 called my mother, Ms. Judy Butler, for help.  
20 my mother called the Inspector General office  
21 three times and explained my medical needs  
22 and problems at S.Q. and requested that  
23 their office interview me, to no avail.

24 On 11-20-2007 in severe pain from said  
25 complications I was transported to Doctors  
26 hospital where I was seen by Dr. Brown

27 On 11-20-2007 I was returned to S.Q. ITA  
28 clinic accompanied by strict treatment

1 orders by Dr. Brown.

10 out of medical file. Dr. Udenhi then said  
11 that he would call Dr. Brown and ask him  
12 what treatment he perscribed. Later, Dr.  
13 Udenhi perscribed me 1mg. of Terazosin  
14 once daily. This dosage did nothing for my  
15 pain or systems. Dr. Udenhi then started  
16 increasing said medications.

17 On 02-14-2008 in S.Q. H-unit medical unit,  
18 I was seen by one Dr. David. Where she said  
19 that she spoke to Dr. Brown and per his  
20 instructions I was to be given a new  
21 treatment procedure. I was perscribed  
22 along with Terazosin, oxybutin 5mg 1  
23 tablet twice daily.

24 Claim 24. On or about 02-18-2008 I again  
25 contacted the prison law office and explained  
26 all of the above medical neglect by S.Q. H-unit  
27 medical and lack of treatment after my recent  
28 prostate surgery. On 02-21-2008 I received a

1 letter from a Mr. Tobias at the prison law office.  
2 At this time Mr. Tobias said that my case  
3 concerning medical neglect was being reopened.  
4 See attachment A-12.

7 I was not under his treatment. Dr. Papas saw  
8 me for my spinal degeneration disorder and  
9 began me on 'facet spinal injections' for my  
10 cervical spine disorder. I am now under  
11 his care. See attachment A-10.

12 Lastly, on 03-28-2008 in S.Q. H-unit medical  
13 I was seen by one Dr. David, where she  
14 referred me back to Dr. Brown urologist, due to  
15 complications from my on going medical need in  
16 that area. Dr. David also ordered an MRI of  
17 my lumbar spine, which I waited three years  
18 to have looked into.

19 Claim 25. On 12-24-2006 at 1900 hours, I  
20 became deathly ill and began to experience  
21 extensive vomiting every 30 minutes. At  
22 approximately 0001 hours I approached officer  
23 Perry in my dorm in S.Q. H-unit and requested  
24 immediate medical treatment, called 'man-  
25 down'. Instead of ordering the man-down,  
26 officer Perry called the first watch sergeant,  
27 who refused me the man-down order. At  
28 approximately 0300 hours I again approached

1 officer Perry and told him that I was continually  
2 experiencing vomiting along with diarrhea.  
3 officer Perry once again called Sergeant on  
4 duty and once again the Sergeant on duty  
5 refused to order a 'man-down medical  
6 emergency' call.

7 At 0520 hours I again approached officer  
8 Perry in my dorm and said, 'For God Sakes  
9 I'm literally dying what do I have to do to get  
10 some medical attention'. Officer Perry finally  
11 wrote me a pass to the ITA clinic.

12 To get clearance to go to said ITA clinic  
13 I first had to walk to S.O. H-unit administration  
14 building, and on the way there I was approached  
15 by the third watch officer Lee, who asked me  
16 what I needed. I told him that I was deathly  
17 ill and needed treatment. Officer Lee said to  
18 hold on and he will call a man-down, which  
19 a R/N agreed.

20 As I waited to be picked up by  
21 an officer Johnston approached me and ordered  
22 me to go back to my dorm. About one hour  
23 later I saw Sergeant Collier and he ordered  
24 that I be escorted to said ITA clinic. At the  
25 ITA clinic the R/N said that if I did not come  
26 in when I did, that I would of died of  
27 dehydration.

28 I Leonard A. Haskins believe that all of the

1 above attachment B-1, through B-13, along with  
2 attachment C-1 through C-5 demonstrate the  
3 dangerous lack of medical care to my person  
4 at San Quentin State Prison when have with  
5 deliberate indifference 'denied' me adequate  
6 medicare care in violation of my United State  
7 Constitution Eighth Admendment Rights to be  
8 free of cruel and unusual punishment, and  
9 my United State Constitution Fourteenth  
10 Admendment Rights to Due Process of Law.  
11 The grounds for relief for neglect of medical  
12 care outlined in attachment B-1 through B-13,  
13 and attachment C-1 through C-5 in this

☐ SUPPLEMENTAL ☒ CONTINUATION OF: ☐ CDC 115 CIRCUMSTANCES ☒ HEARING ☐ I.E. REPORT ☐ OTHER

**Hearing:** The hearing was convened on 03/06/05, at approximately 1800 when I introduced myself to HASKIN as the Hearing Officer for this disciplinary. HASKIN stated he was in good health with normal vision and hearing. HASKIN acknowledged that he received a copy of the following document more than 24 hours in advance of the hearing: CDC-115. This report as well as the disciplinary charge of REFUSAL TO REPORT TO WORK was reviewed with HASKIN in the hearing. He stated that he understood both and that he was prepared to begin the hearing.

**District Attorney:** This has not been referred for criminal prosecution.

**Due Process:** The disciplinary was served on the inmate within 15 days of discovery and the hearing was held within 30 days of service. The inmate received his copies of all documents more than 24 hours in advance of the hearing. There are no due process issues.

**Staff Assistant:** A Staff Assistant was not assigned as HASKIN agrees that he speaks English, is literate (that is, reads at 4.0 or above), the issues are not complex and a confidential relationship is not required. In the hearing, HASKIN confirmed that assignment of a Staff Assistant was not necessary.

**Investigative Employee:** An IE was not assigned as the issues are not complex and the available information is sufficient. Per the CDC 115-A and his statements in the hearing, HASKIN has not requested IE assignment.

**Request for Witnesses:** HASKIN waived all witnesses and the SHO requested none.

**Plea:** Not guilty

**Hearing testimony:** HASKIN gave the following testimony as his defense: I have medical lay-ins for the date I was supposed to have refused to report to work.

**Finding:** Not guilty. This finding is based on the following evidence presented at the hearing.

- A. The report states HASKIN failed to report to work on 2-23-05 and had no lay-in, ducat, pass, or apparent physical disability to excuse him from his job assignment.
- B. Inmate HASKIN produced a medical lay-in dated 2/22/05 stating he was restricted to his housing unit on 02/23 and 02/24.

**Disposition:** Dismissed. After review has been completed by the CDO, a copy of this disciplinary report will be sent to the Register of Institution Violations, the original copy of this disciplinary will be given to the inmate and all other copies of this disciplinary will be destroyed. Notice will be sent to records staff to remove the CDC 804 from the Central File.

**Hearing:** The hearing was convened on 2-13-05, at approximately 1000 hours when I introduced myself to HASKIN as the Hearing Officer for this disciplinary. HASKIN stated he was in good health with normal vision and hearing. HASKIN acknowledged that he received a copy of the following document more than 24 hours in advance of the hearing: CDC-115. This report as well as the disciplinary charge of REFUSAL TO WORK were reviewed with HASKIN in the hearing. He stated that he understood both and that he was prepared to begin the hearing.

**Staff Assistant:** HASKIN was not assigned a Staff Assistant as the issues are not complex, does not meet criteria in CCR 3315 (d) (2)

**Investigative Employee:** HASKIN was not assigned an investigative Employee, incident does not meet criteria in CCR 3315 (d) (1)

**Request for Witnesses:** HASKIN waived all witnesses and the SHO requested MTA's Walker and McCloskey and CMO Dr. Williams.

**Plea:** GUILTY WITH AN EXPLANATION.

**Hearing testimony:** HASKIN gave the following testimony as his defense: I have been trying to get medical treatment regarding pain in my shoulder. I have filed Appeals and they have been returned. CCI Linehan has been attempting to assist me. Hearing postponed pending availability of witness. HASKIN explained that he could not work due to chronic pain in his neck and shoulder due to osteoarthritis.

2-16-05 hearing reconvened with CCI Linehan present. Linehan had a packet of papers. She stated that she had been assisting HASKIN in resolving his medical issues. She had advised him to submit a copy to the CDW and one to the Warden. HASKIN received a notice back, which stated they do not except copies of Appeals. A blank 602 was attached. Neither Linehan nor HASKIN understood where the notice came from. HASKIN went on to explain that he has been attempting to resolve his medical issue for 2 months. Around 10-29-04 a Dr Wilson read some x-rays and stated that the deterioration was worse in his neck than he thought. Dr. Wilson scheduled HASKIN for additional test and asked him about cortisone shots. HASKIN explained that he had a shot about 4-5 years ago. The problem started when medical discovered that his medical file was missing around 12-2-04 and they said they could not treat him because he did to have a medical file. The file was located on 12-29-05. Since then he was treated by Dr. Bui but only for a change in prescription. HASKIN claims to have been referred to CMO Dr. Williams by MTA's Walker and McCloskey, Nurse Daniels and another nurse. On 2-16-05 SHO left a message with the CMO's secretary.

On 2-17-05 SHO contacted the CMO, Dr. Williams. All of the above information was relayed to Dr. Williams. Dr. Williams had a nurse White write a 3-day lay-in for HASKIN. The lay-in was written pending a proper medical review of the issues claimed by HASKIN.

**Finding:** NOT GUILTY of the Div. F (3) (California Code of Regulations, Title 15, Section 3315 (a)(3)(J)) offense REFUSAL TO REPORT TO WORK. This finding is based upon the following preponderance of evidence:

1. HASKIN claimed of having chronic pain from October.
2. HASKIN medical files were lost from 12-2-04 to 12-29-04

Sergeant was called, in direct violation of Section (3354) regarding health care responsibilities and limitations of the Title 15 rules and regulations Code, the First-Watch Sergeant took it upon himself to act as a health care employee and deny me badly needed medical attention. Section (3354) explicitly explains that only health care consultants shall be permitted, within the scope of their licensure, to diagnose illness or, prescribe medication and health care treatment for inmates. Once again at approximately 0300 hrs. after still continuously suffering from extensive vomiting/diarrhea I approached the podium and told Officer Perry that my symptoms have become increasingly worse that I seriously need medical attention, also that I was now becoming critically dehydrated. Officer Perry once again contacted the first-watch Sergeant and explained that inmate (Haskin) was getting seriously worse, unfortunately the Sergeant again violating Section (3354) took it upon himself to deny me badly needed medical attention. At any point of time during this fiasco if by chance an M.T.A. was contacted, then that person was seriously negligent in performing his/her job duties! At 0520 hrs. I approached Officer Perry again and said, "what do I have to do to get some damned medical attention? For God's sakes I feel like I'm literally dying." Finally he took the initiative to write me a pass directly to the T.T.A. Clinic. At 0530 hrs. I barely made it to the Admin. Building and observed my third-watch dorm Officer Lee coming out of the M.S.F. Dorm and approach the Admin. Building, he stopped

thank God I was brought in there. Over approximately 4 hours it took a full 4 liter bags of sterile fluids to bring my heart rate even back to (100) a somewhat safer level. I was lastly given an I.V. injection of prochlorperazine and three prochlorperazine 10mg. tablets. As I got ready to return to my dorm I was told no solid foods for at least 4 days, unfortunately this is where the first mistake was made. I wasn't issued any enlive nutrient drinks to sustain myself. The following day of Dec. 26, 06 I approached male ~~nurse~~ ~~(Picked)~~ and explained to him my situation, he became very unprofessional and stated thusly, "you got enough fluids yesterday I've nothing for you." I was very unprofessionally denied any way to sustain myself for over 4 days until the medical staff finally started handing out (enlive). I was never treated so disrespectfully my entire life until this fiasco. The only three people who showed professionalism and respect were, Sergeant Collier, and the two male nurses in the T.T.A. Clinic.

C. M. O. Baylor:

The main reason that I am sending this appeal directly to you at the informal level is many fold. First, I have previously brought this matter to the attention of your Senior M.T.A. with no response. Secondly, I tried to obtain staff assistance regarding who to direct this appeal to, only to face a dead end. Lastly, the severity of the issues at hand, also that they deal with violations regarding medical protocol, which in turn put my health and well-being at great risk.

JAN 17 REC'D

I will deeply appreciate your assistance in getting to the bottom of this urgent matter.

Thanking you in advance.

## Memorandum

Date : March 1, 2007

To : Haskin, B96040

Subject: STAFF COMPLAINT RESPONSE - APPEAL # 07-00209-

**APPEAL ISSUE:** Complaint Against Staff

**DETERMINATION OF ISSUE:** A review of the allegations of staff misconduct presented in the written complaint has been completed. Based upon this review your appeal has been handled as follows:

- ☒ PROCESSED AS A STAFF COMPLAINT APPEAL INQUIRY  
☐ REFERRED TO THE OFFICE OF INTERNAL AFFAIRS (Note: You will be notified of the conclusion of any internal affairs investigation)

**SUMMARY FOR APPEAL INQUIRY:**

You allege that on December 24, 2006 you became very ill, which lasted for several days. You stated that you received several liters of IV Fluid in the TTA during the time of this illness. You alleged that LVN Picket was in H Unit on December 26, 2006 and treated you in an unprofessional manner when you requested Enlive. Upon interview, you stated that you chose not to pursue the complaint against LVN Picket at this time.

**FINDINGS FOR AN APPEAL INQUIRY:**

Your appeal is PARTIALLY GRANTED at the ☒ First level, as an inquiry into your allegation has been conducted. ALL STAFF PERSONNEL MATTERS ARE CONFIDENTIAL IN NATURE. As such, results of any inquiry/investigation will not be shared with staff, members of the public, or inmates. Although you have the right to submit a staff complaint, a request for administrative action regarding staff or the placement of documentation in a staff member's personnel file is beyond the scope of the staff complaint process.

Allegations of staff misconduct do not limit or restrict the availability of further relief via the inmate appeals process. If you wish to appeal the decision, you must submit your staff complaint appeal through all levels of appeal review up to, and including, the Director's Level of Review. Once a decision has been rendered at the Director's Level of Review, your administrative remedies will be considered exhausted.

part within this appeal was a minor issue at best. I personally spoke with an Officer who was a key witness in this appeal, he was never interviewed. As far as I have been able to ascertain, there was never any legitimate investigation ever conducted, only a giant smoke screen. Considering that one of the most important witnesses was never interviewed, only adds credence to the lack of any means of investigation. I am also considering filing a Citizens Complaint regarding this matter. I don't appreciate being lied to regarding this matter. I am now requesting an Internal Affairs investigation of these issues, especially after the malicious intent to thwart the seriousness of this appeal through totally inadequate investigating!

Attachment A-5(9) 3-6-07

Unfortunately once again it seems that one of my Inmate Appeals wasn't returned on it's due date as yet.

The Appeal that I filed regarding Staff Complaints Log # C.S.Q-5-07-00209 had a due date of 2-27-2007. This Appeal was assigned to the AW3 as a Staff reviewer at the First level for response.

It seems this is an ongoing problem at this Institution concerning Appeals not being returned on their (due dates).

I would deeply appreciate my Appeal being returned with the First level reviewer's response.

In accordance to the Title 15 Rules and Regulations Code, as per Section 3084.5, regarding (Levels of Appeal Review and Disposition), Second level review shall be conducted by the institution head or regional parole administrator, or their designee. Considering that my appeal log # C.82-5-07-00209 in accordance with your Inmate / Parolee Appeals Tracking System, was originally assigned to the (H.C.M.) then redirected to the (A.W.3) at the First Level of Review, then once again redirecting my appeal at the Second Level of Review back to the (H.C.M.) is totally inappropriate. This misdirection of my appeal is in complete violation of the Title 15's Section 3084.5 concerning Levels of Appeal Review. Unfortunately, the (H.C.M.) does not meet the criteria as a high enough level staff member to answer my appeal at the Second Level, per the Title 15 Rules and Regulations Code Book. I would deeply appreciate my appeal being reassigned to the proper level reviewer.

I approached Officer Perry again and said, "what do I have to do to get some damned medical attention? For God's sakes I feel like I'm literally dying." Finally he took the initiative to write me a pass directly to the TTA Clinic. At 0530 hrs. I barely made it to the Admin. Building and observed my third-watch dorm Officer Lee coming out of the M.S.F. Dorm and approach the Admin. Building, he stopped

explained that I had been deathly ill all night long and was in  
ribous need of medical attention. Officer Lee exclaimed, "we  
ed to do a man-down, hold on for a second." Just as  
Officer Lee entered the building the morning nurse  
rrived. She told me to also hold on a moment as she  
tered the building. Unfortunately directly after she  
tered the building Officer Johnston approached me very  
rogantly, "what the fuck do you think your doing out here?"  
the ranch is out here get the fuck back to your building."  
hen I tried to explain he again said, "get the fuck  
ack to your building now." By that time I was so  
weak I barely made it back to building (4). While standing  
inside the door of my building at approximately 0555 hrs. I  
as lucky to observe 2nd-watch Sergeant Collier going through  
he the outside ped-gate, I immediately approached him and  
explained my plight. Sergeant Collier thankfully acted very  
professionally and escorted me directly to the admin. building  
told me to grab a chair, then sit directly outside the  
clinic area. Approximately 30 minutes later I was escorted  
y walking directly to the T.T.A. clinic. Thankfully to  
Sergeant Collier's professionalism I was finally out of Serious  
medical danger. When the on duty nurses took my vital  
igns and discovered a heart rate of (145-150) they  
instinctively knew that I was very seriously dehydrated.  
They immediately contacted the on-call emergency doctor  
and he confirmed that I was dangerously dehydrated  
start pumping fluids into him (stat). Both on duty

Attachment; A-5 (22)

Thank God I was brought in there. Over approximately 4 hours it took a full 4 liter bags of sterile fluids to bring my heart rate even back to (100) a somewhat safer level. I was lastly given an I.V. injection of prochlorperazine and three prochlorperazine 10mg. tablets. As I got ready to return to my dorm I was told no solid foods for at least 4 days, unfortunately this is where the first mistake was made. I wasn't issued any alive nutrient drinks to sustain myself. The following day of Dec. 26, 06 I approached male nurse (Picket) and explained to him my situation, he became very unprofessional and stated thusly, "you got enough fluids yesterday I've nothing for you." I was very unprofessionally denied any way to sustain myself for over 4 days until the medical staff finally started handing out (alive). I was never treated so disrespectfully my entire life until this fiasco. The only three people who showed professionalism and respect were, Sergeant Collier, and the two male nurses in the T.T.A. Clinic.

initial appointment on 10-27-04, I have run into serious trouble in performing my job assignment due to severe pain. On 11-3-04 I was returned to H-unit at 12:15 because of severe pain. On 11-29-04 I was called back in to medical by Dr. Wilson for a 30 day review. At this time I was going to discuss the problems I was having regarding pain and ask to be given a steroid shot so I could properly perform my job assignment. Unfortunately since Dr. Wilson left early that morning, I had to be seen by another Dr. who was unfamiliar with my case, and was basically unable to resolve any issues. On 12-2-04 I was seen by the Tele-Ortho physician and explained to him of the problems I was having and that I had been unable to report to my job assignment for approximately a little over a week already. At that time the Doctor was going to request that I start physical therapy and I was to be placed on temporary medical hold until I was able to return to work. Also paper work was to be sent to my supervisor Jeff Scooby with a full explanation, I don't want to loose my job assignment! On 12-3-04, I asked M. J. A. Walter if my paper work was sent to my boss, "no, but I'll ask for your chart so it can." On 12-6-04 I asked M. J. A. Morrow if my paper work had been sent to my boss, "no, but I will ask for your chart once again." Every day to date (12-17-04) I have been asking to be seen by Dr. Wilson and my response is no chart, you can not be seen without a chart. Because of this charade, I am about to loose my job.

treatment for my shoulder and to be placed on temporary medical leave from work. The Jeli Onthe Nurse took my boss's name and extension number from me and said he would receive the necessary paper work. On 12-3-04 after finding out that my boss didn't receive paper work, I went to M.J.A. Walber who said she would ask for my chart and take care of the problem. On 12-6-04 again finding that my boss hadn't received any paper work as yet, I went and asked M.J.A. Morrow to check into the matter. She, once again said she would ask for my chart and resolve the problem. On 12-7-04 when enquiring again with M.J.A. Morrow, she exclaimed that my chart was unavailable. After receiving the same answer for approximately (2) two weeks on a daily basis, I consulted with Lieutenant Eagan regarding the problems I was having. He said I should file an immediate Inmate Appeal to cover my tracks. On 12-17-04 I delivered my appeal to M.J.A. Morrow who was to hand deliver it to Chief Medical Officer Or. Calvo that day. On 12-20-04, I asked M.J.A. Morrow if she delivered my Appeal, she informed me that it was delivered to the Appeal's Office. On a daily basis since 12-17-04 I have been asking if my Medical Chart has been located so I can receive medical treatment. I have been treated very disrespectfully ~~by~~ by M.J.A. Morrow and Walber telling me there was nothing they would do until they received an answer on my Appeal. On 12-29-04 since (12) twelve days had elapsed with no response, I asked M.J.A. Morrow once again what was happening. I received the same arrogant response, "there is nothing

Attachment; A-6(4)

I will do until I receive an answer on your appeal." The continued responses finally made me suspicious, that is when on 12-29-07 I brought the matter to the attention of Officer Brodi who contacted your Office.

The deliberate misdirection of an Appeal is serious business, considering the consequences that it can cause. The inmate Appeal is a legal process and should be treated as such by all individuals who handle them. The deliberate misdirection ~~of~~ destroying of an Appeal should deem serious disciplinary actions to all parties involved.

One thing that I forgot to mention is that a copy of my Appeal was sent by myself directly to Dr. Calvo.

6/17/05**IMPRESSION:**

1. Small central protrusion at C2-3 without significant effect on neural elements.
2. Small to moderate central protrusion at C3-4, with asymmetric degenerative joint disease and bilateral neural foraminal stenosis.
3. Broad based bulge and uncinat greater than facet hypertrophic changes at C4-5, with mild central stenosis and marked bilateral neural foraminal stenosis.
4. Broad based bulge and uncinat greater than facet degenerative changes at C5-6, with mild central stenosis and moderate bilateral neural foraminal stenosis.
5. Broad based disc/osteophyte complex and uncinat greater than facet degenerative changes at C6-7, with mild right and mild to moderate left neural foraminal stenosis.

**CLINICAL INFORMATION:** Bilateral upper extremity radiculopathy.**COMPARISON:** None available.**TECHNIQUE:** Sagittal spin echo T1 and fast spin echo T2. Axial fast-spin echo T2 and fast gradient echo T1 weighted.**EXAMINATION FINDINGS:** Vertebral body heights, alignment, lordosis and marrow signal intensity are normal.

Visualized posterior fossa elements are normal in structure and signal intensity. No tonsillar herniation, intradural soft tissue mass, or epidural fluid collection is present. Paravertebral soft tissues are unremarkable.

**Findings at Specific Levels:****C2-C3:** Small annular tear and protrusion, without stenosis.**C3-C4:** Small to moderate central protrusion, which causes moderate effacement of the ventral CSF space, and abuts the ventral surface of the spinal cord without indenting it. Moderate bilateral facet and mild bilateral uncinat hypertrophic changes are seen. There is moderate left and mild right neural foraminal stenosis at this level.**C4-C5:** Moderate disc desiccation with mild to moderate broad based bulge, mild bilateral facet hypertrophic changes, and moderate to marked bilateral uncinat hypertrophic changes. There is moderate effacement of the ventral CSF space, without flattening of the spinal cord. Moderate to marked bilateral neural foraminal stenosis is seen at this level.**C5-C6:** Moderate to marked disc desiccation with moderate broad based bulge, moderate bilateral facet hypertrophic changes, and moderate to marked bilateral uncinat hypertrophic changes. There is moderate effacement of the ventral CSF space, without flattening of the spinal cord. Moderate bilateral neural foraminal stenosis is seen.**C6-C7:** Moderate disc desiccation with marked loss of disc height and moderate anterior disc/osteophyte complex. Mild to moderate posterior disc/osteophyte complex is seen, with mild bilateral facet and moderate bilateral uncinat hypertrophic changes. There is mild effacement of the ventral CSF space, without flattening of the spinal cord. Mild right and mild to moderate left neural foraminal stenosis is seen at this level.

## Memorandum

Date : June 1, 2006

To : Jonathan L. Wolff  
Supervising Deputy Attorney General  
State of California Department of Justice

Subject: **PRISON LAW OFFICE REQUESTS FOR REVIEW OF PLATA INMATE CONCERNS  
RELATING TO INMATE LEONARD HASKIN, B-96040**

Pursuant to the Stipulation For Injunctive Relief agreed to in re *Plata v. Schwarzenegger*, the Health Care Manager at San Quentin State Prison (SQ) has provided the following information in response to the questions asked by Alison Hardy of the Prison Law Office.

1. Is Mr. Haskin currently prescribed Flomax? If so, is it in his possession? Please explain.  
*Dr. Williams personally visited with Mr. Haskin on May 25, 2006. On April 25, 2006, Mr. Haskin received 30 Flomax with a renewal on May 25, 2006.*
2. Please explain the delay in Mr. Haskin receiving his prostate medication.  
*A review of Mr. Haskin's UHR reveals that a physician did order Flomax through April 18, 2006. His order was renewed on April 25, 2006.*
3. Is Mr Haskin currently having trouble urinating?  
*Mr. Haskin states he does experience occasional difficulty urinating in the evening.*
4. What is Mr. Haskin's current treatment plan?  
*A request for urology consult was submitted on May 25, 2006, to explore therapeutic options (medically or surgically).*

Thank you for your assistance in this matter. Please do not hesitate to contact me at (916) 327-1205, if you have any questions.

Dear Mr. Haskin:

I write in response to our conversation on 11/30/06. In the conversation, you stated that you had an MRI done over a year ago, and that you were referred to a neurosurgeon, who said that he wanted an up-to-date MRI before performing surgery. You express your concern that it would take weeks or months to have this MRI performed.

I am sorry to hear about this situation. After reviewing the documents we have on file, we will unfortunately need for you to exhaust your administrative remedies on this issue before we can advocate on your behalf.

Until I hear from you again, I wish you the best.

Sincerely,

Sam Weiner

Dear Mr. Haskin,

As you know, we wrote to the Attorney General on 5/9/2006 under procedures set forth in the *Plata* Stipulation to request further information about your Flomax. I spoke with Dr. Saylor about your concern at a telephone conference on 7/14/2006. Please see the enclosed memo for further information that was provided to us.

Dr. Saylor said that you were seen on 7/14/06 by the urologist. I also spoke to you on 7/17/2006 and you confirmed this statement, as well as informing me that you are still taking Flomax.

During our phone conversation, you also informed me that you have been waiting over three months for results from an upper-GI. I understand that you are very frustrated because you have had to wait so long for these results, and it is inhibiting you from seeking further treatment from specialists. Unfortunately, our office is unable to assist you with this concern at this time. You must attempt to exhaust your administrative remedies before we can determine whether we can assist you.

If you have specific information or documents showing that the information told to us by prison officials is not correct, please contact us. Unless there is such information, we cannot take further action regarding your particular medical care concern, and we may not be able to take further action in any event, depending on the nature of your medical concern. We advise you to continue using the "sick call" process to bring your concerns to the attention of medical staff. If your concern is not resolved by medical staff, you should file and pursue a 602 administrative appeal unless you have already received a Director's Level response to an appeal. You can send this office any newly exhausted medical appeal (602 with Director's Level response).

I wish you the best.

Sincerely,

Nina Frank

Dear Mr. Haskin,

As you know, we wrote to the Attorney General on 5/9/2006 under procedures set forth in the *Plata* Stipulation to request further information about your Flomax. I spoke with Dr. Williams about your concern at a telephone conference on 6/9/2006. Please see the enclosed memo for further information that was provided to us.

Dr. Williams said that you now have your Flomax in your possession. He told us that the delay in receiving this medication was due to the prescribing doctor not drafting a follow-up order. He also informed us that when he spoke with you about a week ago, you told him that you are only having trouble urinating at certain times of the day. He told us that he suggested that you take your medications later in the morning to alleviate these symptoms. Dr. Williams also informed us that he submitted a request for you to see the urologist. During our next call, we plan to ask about the scheduling of this appointment.

Since there are issues that are still unresolved, I intend to discuss your case with the Health Care Manager at SQ again during our next scheduled call on 7/14/06. I will contact you again once I receive further information. I would appreciate it if you would keep me updated regarding any treatment or pending treatment you receive. I am enclosing a postage-prepaid envelope for your convenience.

FOLSOM STATE PRISONNAME HASKIN, LEONARD NO. B-96040 DATE 09/29/98X-RAY OF LUMBOSACRAL SPINE ORDERED BY GEOFFREY HANSON, M.D.

CLINICAL DATA \_\_\_\_\_

Outside films of the lumbosacral spine dated 11/19/96 have become available for comparison with the study dated 06/23/98. The degenerative osteoarthritic changes have advanced slightly compared with the previous study and involve more joints. Rudimentary twelfth ribs were noted in both studies. The narrowing of the fourth lumbar vertebral interspace was noted in both studies with very little if any change. The latest study shows narrowing of the fifth lumbar vertebral interspace not mentioned in the report and appears narrower compared with the previous study. The third lumbar vertebral interspace appears well preserved to this observer with no significant change compared with the previous study. There is widening of the transverse processes of L-5.

## IMPRESSION:

1. Degenerative osteoarthritic changes and suggestive of degenerative disc disease, advanced, compared with the previous study.

CLINICAL DATA \_\_\_\_\_

The examination reveals apparent partial lumbarization in the first sacral segment with an associated joint space narrowing although disc disease here cannot be excluded. I cannot exclude neural foraminal encroachment by posterior spurring at this level as well. There is also a slight narrowing of the fourth lumbar vertebral interspace and disc disease here cannot be excluded. Mild degenerative osteoarthritic changes are noted with anterior vertebral body lipping and osteophyte formation involving T-12, L-1, L-3, 4, and 5. The study is otherwise unremarkable.

DATED April 11, 2007

January 13, 2005

Beginning of October, severe pain neck and left shoulder. Dr. Wilson ordered xrays of both areas.

10-27-04, xray results consultation with Dr. Wilson. Good news, bad news. Left shoulder not so bad as expected, bad news, neck xrays look terrible. Several tests ordered along with teleortho conference appointment request, plus a 30 day review. Medication prescribed (Bextra-Celebrex).

11-29-04, 30 day review appointment for Dr. Wilson, already missed several days of work due to severe pain. Would resolve problems with Dr. Wilson. Unfortunately Dr. Wilson left early that day, was seen by Dr. Striker instead, nothing resolved. In urgent need of paper work for my boss, Jeff Scoggy, P.S.A. Chair Upholstery.

11-29-04, new request filed to be seen by Dr. Wilson.

12-2-04, Teleortho conference with Dr. Tangi of U.C. Davis sports clinic. Explained about severe pain in neck and left shoulder to him, along with being absent from my job for several days. He was very evasive when I asked about my xray results, I was actually given almost no information. All-though, paperwork was to be sent to my boss temporarily placing me on medical hold, along with ordering physical therapy for my shoulder.

12-3-04, asked M.J.A. Moore if paper work had been sent to my boss, no, but I will request your chart and take care of it.

12-6-04, Again asked M.J.A. Moore about my paper work plus my request to see

Attachment A-15 (2.)

Dr. Wilson. Once again, "I will request your chart and you will be seen."

12-6-04 - 12-17-04, I received a new reply, "We are unable to locate your chart."

12-17-04, I met with Lieutenant Cagan and explained my problems. He told me to immediately file an Inmate Appeal to cover my tracks, although he would wait for any disciplinary paperwork. My appeal was to be hand delivered by M.J.A. Morrow to

Dr. Cabro.

12-20-04, when I inquired with M.J.A. Morrow regarding the delivery of my appeal, she exclaimed that she delivered it to the Appeal's Office. I told her that wasn't the correct procedure; you can't bypass the informal level. "Oh well."

12-29-04, I asked Officer Brodie to see the facility Captain because it had been 12 days with no reply from my appeal, the matter was becoming quite urgent. Also that on a daily basis from 12-17-04 - 12-29-04 when I asked M.J.A. Morrow if my chart has been located, I need to be seen by the Doctor, I received a very evagant reply. "We refuse to do anything until your appeal is answered." Officer Brodie contacted Loretta in the Appeals Office who explained that I need to file a back-up appeal ~~explaining~~ explaining everything I have done up to date and send it directly to her, which I did.

12-23-04, while this was taking place I was seen by Dr. Cappigoli, the Neurologist. My chart was still not

Attachment A-15 (3)

available, although he conducted some preliminary tests. He confirmed that I did have advance stages of neuropathy, along with the need for an immediate M.R.S. He also asked me if I needed corrective surgery if I would allow it, "yes, if the Surgeon was highly qualified and to my liking only." I also learned that the cause of my neuropathy might well be the T.B. Medication ~~was~~ was given while at California Men's Colony from 1993-1995. He also confirmed advance stages of osteoarthritis 1-3-05. I received through Institutional mails both Appeals dated 12-17-04 and 12-29-04. The original appeal dated 12-17-04 showed a return date of 12-29-04 the date of my second appeal, quite a coincidence. The reply I was given is that my chart was located, then a kind of arrogant remark, "Thank you very much." But! there was no reply to my other two requests, paper work to my Supervisor (Jeff Sloggy) and to be seen by Dr. Wilson as soon as my chart was located. The appeal that was requested by Loretta in the Appeal's Office dated 12-29-04 was also returned refusing processing for bypassing the informal level. This was in total disregard as to what I was told by Loretta to do!

1-3-04, both appeals were sent back together for re-processing with full explanations on my part. 1-5-04, both appeals were returned to me. The appeal dated 12-17-04 had attached to it a cover letter cancelling my appeal for ~~unsubstantiated~~ unsubstantiated

Attachment A-15 (A-)

nurses. The Appeal's Office illegally refused to process my appeals. See copies of both cover letters enclosed.

1-12-05, I inquired through M.J.A. Walker why I haven't been seen by Dr. Wilson since my chart was located on 12-29-04? She told me to file another request and it would be given directly to Nurse White. When I was returning to the H-Unit Clinic to turn in my request, I caught Nurse White outside the Administration Office door and explained my situation. She immediately returned to the clinic and gave my request to M.J.A. Morrow and told her to request my chart. I would be seen that day. At approximately 1:45 P.M. when she was leaving to go home, I stopped her at the ped-gate and asked what happened. "I was to busy today, I have your chart, you will be seen tomorrow."

1-13-05, when I tried to ask M.J.A. Walker heading to the ped-gate at 12:30 this day what happened again, she completely ignored me.

This is when I met with Counselor Linehan. I have been maliciously denied medical treatment for close to three months. Every avenue I have tried to use to resolve this urgent matter has maliciously been thwarted.

All this information has been supplied to an attorney in Anthony Lewis Office.

San Quentin, Calif. 94964

Mr. Randy Darr  
Attorney at Law  
506 Broadway  
San Francisco, Calif. 94133

Mr. Darr:

While I was at High Desert State Prison from 1996-1998 I was beginning to suffer from severe pain within my neck and lower back. After my initial consultations with Medical Staff and the taking of xrays, I was diagnosed with the intermediate stages of osteoarthritis with disc degeneration.

Unfortunately as time has elapsed, the degeneration has rapidly increased up to the present time where it has become critical! One of the reasons I am writing you is that I am not receiving any type of medical treatment as needed, which I will expand on further in the letter.

During the year of 2002 while I was assigned to Quentin's Fire House, I was suffering from severe loss of feeling in both my feet. When seen by the foot doctor his diagnosis was that my foot size was a half size too small, although when I acquired a pair as directed of boots a half size larger, the symptoms persisted.

Approximately four months later I was seen by another Doctor, Dr. Clark, whose diagnosis was

Attachment A-16 (2-)

that I had an advance case of neuropathy and that the foot doctor was an idiot. After running every blood test available, it was discovered that there was no shorable cause for the illness. This is another part of the reason I am writing you.

There are now as previously stated two major medical conditions I am suffering from at the present time. Now let me bring you up to date.

Approximately 5 months ago I was transferred from the North Clark Facility to the H-Unit Facility here at San Quentin. At that time my job assignment was also changed from Vocational Training Teamman Painter to Prison Industries Chair Upholstery.

For the first two months things were going very smoothly, I even earned a pay increase from my boss, but, I was starting to suffer severe pain in my left shoulder and neck. Since the pain kept increasing and I was starting to have trouble performing my job assignment, I requested an appointment with the H-Unit Doctor.

I was seen by Dr. Wilson and he ordered immediate x-rays of both areas. When I returned for initial consultation for my x-ray results on 10-27-04, I was informed that my x-ray results showed good and bad news. My shoulder wasn't as bad as expected, although my neck x-rays were terrible. Dr. Wilson even asked how long has it been since I have had a steroid shot, which is five years, but I wasn't given one.

During that appointment Dr. Wilson ordered many tests to be conducted including a neurological exam plus a videotape conference with the orthopedist along with a thirty day review. The medications that he prescribed at that time were, (Celebrex 200 mg. twice daily and (Badolom 10 mg. at P.M. as needed.)

Unfortunately, even with the medications the pain I was suffering was becoming more and more severe, my job performance was dropping. By the time my 30 day review day arrived, I already missed a couple days of work. My major objective has always been to find some means of treatment to get me back to work so I don't lose my job assignment and pay status.

I figured that on 11-29-04 when I was to see Dr. Wilson for my 30 day review, the opportunity to resolve these issues would be available. That wasn't going to be the case. On 11-29-04 the day of my appointment Dr. Wilson left early and another doctor was brought in to take his place. Since he wasn't the doctor familiar with my case, he refused to assist me in any way, except to re-request a neurological exam. The impact of his denial to assist me was devastating because I had no way now of getting paper work to my boss to excuse me from work.

Thank God that on 12-2-04 I appeared for my videotape conference with Dr. Tange the Orthopedist. Although he was very unsure when I tried discussing the results of my ~~pres~~ <sup>pres</sup> with him, I thought I was to be lucky on two counts. He was going to

order physical therapy for my shoulder, and paper work was to be issued to my boss placing me on temporary medical leave until something was done to get me back to work.

When I checked on 12-3-04 to see if medical had sent paper work to my boss yet. I was told that it wasn't but they would request my chart and take care of it. I also requested to be seen by Dr. Wilson since he wasn't at my initial review on 11-24-04, that would be taken care of with my chart also. On Monday 12-6-04 when I checked with M.J.A. Morrow again, she said that she was going to request my chart once again and take care of business. On the following day the story changed, my chart was nowhere to be found and nothing could be done without it. Every day up till the 17th of December this is the story I received from both M.J.A. Walker and Morrow.

On 12-17-04 I brought this matter to the attention of the 2nd. watch Lieutenant Eagan, who told me to file an Informal Appeal to cover my tracks. I am enclosing a copy of my appeal with this letter. On that day the appeal was given to M.J.A. Morrow to hand deliver it to Chief Medical Officer, Dr. Calvo. When I inquired the following day, she exclaimed that she turned it into the Informal Appeal Office instead. That is not what I wanted because if the appeal hasn't been answered at the Informal level first, it will not be processed

Attachment A-16 (5)

and be sent back to the sender. I explained to Mr. J. A. Morrow all of this when leaving my appeal with her.

From 12-17-04 to 12-24-04 I checked on a daily basis if my chart had been located, I needed to be seen by the doctor. Now I was receiving a very arrogant reply, "Mr. J. A. Morrow, mostly, we can't do anything without an answer on your appeal." On 12-24-04 since my absence from my job was becoming more serious and I was becoming suspicious of the lengthy delay, I approached Officer Brodi and requested to see the Facility Captain. I explained to him ~~how~~ what my problem was and he contacted Forester at the Appeal's Office who said to file another appeal explaining everything that's taken place and send it directly to her Office, which I did.

On 12-23-04 a couple of days prior to this I was seen by Dr. Cappozzoli, the Neurologist. At this time my chart was still not found, although he did run some preliminary tests. First I was asked if I needed surgery would I submit to it. I replied yes, if the individual performing the surgery was highly qualified and to my liking. Randy, the next two parts are very important regarding what I was told. First, that I show somewhat advance stages of neuropathy, and a M.R.I. is needed. Next, when I asked if the cause of neuropathy he said that since all my blood tests were negative

there had to be some source of the illness. This next part is the clincher; I was asked if I had ever taken the T.B. Medication because it causes neuropathy. Yes, I had a positive test at California Men's Colony and had taken the medication for the required six months. Next he asked me if I was informed at the time that the medication causes neuropathy. No I was not, they ~~had~~ only told me that for men over the age of forty it can cause liver damage.

At this time Dr. Cappiagalli informed me that the Department of Correction's Medical Staff who issued me this medication should be held accountable for their lack of knowledge displayed regarding the seriousness of the side effects the medication could cause. The damage this medication can cause is extremely serious, and you should be made aware of this facts prior ~~to~~ taking the medication.

Randy, my hands are my major source of supplying myself with a way of living. I have extensive training in the Printing Industry, auto mechanics industry, etc. The loss of feeling in my hands is devastating. Then you must consider this illness is affecting several other areas of my body, as previously mentioned, my feet also. My symptoms are not a natural occurrence, they are caused by an irresponsible outside source. You can't imagine the mental anguish that a daily loss of feeling in many of my limbs creates.

Attachment A-269D

Someone needs to be held accountable for the serious loss I've suffered from. The continued day to day stress that this condition causes is so extensive. The continued numbness in my hands and feet drives me crazy with anger. Every night when I try to go to sleep, I have to live with the feeling that my toes have been cut off, sometimes these feelings do tend to drive me crazy.

Randy, this condition is very hard to live with on a daily basis, especially when considered how far it might spread through my body. Even my mouth area is going numb, it feels just like after leaving the dentist.

Another libel issue is that I was prescribed (Celebrex) approximately two months ago. Several Staff Members along with myself agree that the Medical Staff were aware of the serious side effects the medication was causing. They ~~just~~ also feel myself included, that this medication should not have been prescribed. Since taking this medication, I have suffered shortness of breath, severe stomach pain, intestinal discomfort, and difficulty in urinating. Just recently this medication was recalled by the manufacturer.

Lastly, as previously stated I am enclosing copies of both inmate appeals I recently submitted. They should help to explain some of the problems I have been also facing.

Please note the cover page copy attached

To the appeal dated December 17th, which shows the illegal cancellation of my appeal. How am I to send paper work to my supervisor unless medical staff writes it? Also, I have not to the date of this writing been seen by Dr. Wilson with my chart present. Secondly, there was no new issues added to this appeal. As previously mentioned, Lieutenant Lagan agrees that there was no grounds to cancel this appeal.

The other appeal copy enclosed dated 12-29-04 is the follow-up appeal I filed to locate my first appeal. If you note the cover page attached to this appeal, it was also refused processing even after I was informed by Officer Brode that he was informed by Loretta in the Appeals Office to send it directly. Take notice that on the first appeal dated 12-17-04, the return date just happens to be 12-29-04, the date on the second appeal. I write a coincidence, "I wonder."

Randy, as of this writing I have not received any means of treatment whatsoever to send me to get back to my job assignment. I have not been seen by Dr. Wilson, even after my chart was found on 12-29-04. The physical therapy which was to be ordered by the Orthopedist on 12-2-04 hasn't been started. I was never brought in to be seen by Dr. Wilson to replace the medication (Celebrex) which was recalled. At most, the only thing I have received from the expected medical

propounds at this institution is an arrogant attitude.

Randey, I will duly appreciate your legal assistance in these matters. Many of the more caring staff members I've spoken with, agree that I deserve monetary compensation for the damages that I've suffered at their hands. The irresponsible issuance of medications causing me permanent loss, to the lack of medical treatment. The continued stress I have to suffer with the advance stages of neuropathy, along with the pain and suffering from the Osteoarthritis with no treatment.

Another idea which was brought to my attention from some more concerned Staff Members along with receiving monetary compensation was this. Even though I have been in and out of prison quite a few times, the lack of severity of my crime being Auto Theft is minimal. Along with the consideration of my age factors in also. The suggestion was to approach my sentencing Judge in Long Beach, (Judge Keyman) and convince through the severity of my medical needs, to suspend the balance of my sentence and allow me to seek proper medical treatment through the Veterans Hospital.

If necessary I would locate in the Los Angeles area, check in regularly with Judge Keyman, and

consider any other reasonable stipulations. By having the grounds of a sizable civil complaint so bargaining power on our side, several people feel along with myself that we should be able to reach some agreement.

Please accept my apology for such a lengthy letter, although I wanted to be thorough in my explanation. Also accept my apology for the somewhat sloppy writing, with the clumsiness in my hand it's difficult to write.

I am hoping you find it in your heart to help! Even though I am fully aware I am definitely no saint as you say, these people still shouldn't be allowed to get away with medical negligence. If you knew my family's background, you will discover that from the early 1920s to 1985 we owned a very famous business in San Francisco by the name of (California Printing Co.)

Once again I will deeply appreciate your help and friendship in this matter.

Thanking you in advance.

Respectfully,

Leonard Hasen

Dear Mr. Haskin:

I am writing to let you know that based on the phone conversation we had on 2/1/08, we will be re-opening your file. Nonetheless, in order to document your concerns, I still encourage you to continue to pursue this matter through the 602 appeals process as well.

We will discuss your medical care and health concerns at our next scheduled HCM conference call. We will contact you again once the call has taken place. We have submitted the following to the Attorney General's Office:

On 2/1/2008 we received a call from Mr. Haskin. At that time he informed us that in November he underwent surgery to address urological problems. He states that he received a number of post-surgical recommendations, including urinalysis and a prescription for Paradione. However, Mr. Haskin informs us that he did not receive these treatments, and states that San Quentin medical staff told him they have not been able to locate any post surgical recommendations. He states that he saw his PCP on 1/14, and she said that she would inquire about this issue, but as of 2/1 he has not received a response.

1. Please briefly describe Mr. Haskin's November surgery, post-operative care at San Quentin and current medical status.
2. What post-operative recommendations, if any, has San Quentin medical staff received following Mr. Haskin's surgery?
3. Has Mr. Haskin been seen regularly by his PCP following his surgery? Is it appropriate that he be seen regularly? Please explain.

Sincerely,

Tobias Smith
